

Price List for Services

Our job at DigitalCachet.com is to please our customers. That means if you're not pleased with our work, you will not be charged! Due to the custom nature of photo restoration, a definitive price list is not possible. The prices listed below should be understood to be "ballpark" prices for a typical level of effort on our part. All scans include a basic level of cleanup without additional cost. These estimated prices should give you a rough idea of what the cost will be. A final quote for your specific project will be provided once we have an opportunity to establish the scope of the work and see the condition of the original images. Be assured that we will not begin work on your project until you have been provided a final quote and agreed to allow us to proceed.

There is no charge for our time to evaluate your project and provide a final quote. If you do not choose to allow us to proceed, you will only be charged for the actual cost of returning your project materials (shipping, handling, and insurance).
